DB migration HW

AmiGo

Go migration with gORM.

- ☐ migration
- ☐ request-1
- ☐ request-2
- ☐ request-3
- ☐ request-4
- ☐ request-5
- ☑ web-server

To run Go server run:

```
cd amigo
go run .
```

KRusty

Rust migration with diesel.

- ☑ migration
- ☐ request-1
- ☐ request-2
- ☐ request-3
- ☐ request-4
- ☐ request-5
- ☑ web-server

To run Rust server run:

```
cd krusty
cargo run
```

In both of the projects there is an implemented web-server for you to have better visual data representation:

- localhost:8080/ - answers for all 5 tasks
- localhost:8080/first - answers for first task
- localhost:8080/second - answers for second task
- localhost:8080/third - answers for third task
- localhost:8080/forth - answers for forth task

- localhost:8080/fifth - answers for fifth task
